Objectives:

1. To develop a platform for students to socialise and learn collaboratively with other institute students about their social, outreach, cultural and academic programs.
2. To give students exposure to develop themselves holistically.
3. To adopt the national initiatives under EBSB: Students exchange program at institute level.

Description:

Sojourn is a cultural program that provides a platform to show their talents in different fields which includes singing, dancing etc. and which will increase students' interest in that particular field. It was a cultural event planned by TSDW scheduled for April 2022. The main objective of the program was to develop a platform for students to socialise and learn collaboratively with other institute students about their social, outreach, cultural and academic programs. The overall theme of the event was "Incredible India".

There were several events conducted in this program. Aaja Nachle, Suro ka Sangam and Lights! Camera! Fashion! consisted of two rounds.

1. Round 1 - Submissions were screened by a panel of judges and videos were shortlisted on the basis of various parameters decided by the judges.
2. Round 2 - Shortlisted videos were uploaded on TSDW's Instagram handle. The number of Likes received by the submission on TSDW's Instagram handle was considered for selecting winners, but was not the sole criteria.

1. Aaja Nachle

- Participants had to prepare and upload their dance video on the drive link provided to them. All types of dance forms were allowed. Multiple dance forms were included.

2. Suro ka Sangam

- Participants had prepared and uploaded their singing video on the drive link provided to them.

3. Lights! Camera! Fashion!

- Participants had to make reels with cool and creative transitions.
- Theme for the reels - Incredible India
- Transitions were made into dresses representing Indian Culture.

4. Khazane ki Khoj

- Participants navigated on different platforms like instagram, youtube etc. as instructed in the clue.
- The puzzle had to be solved in the given time. Completing the treasure after the deadline will not be eligible for the prize.
- Participants were allowed to use google to solve quizzes and a calculator for numeric calculation.
- Participants can advance to the next level only after fully completing and solving the current puzzle.
- Every code word / password must be noted for final evaluation.
- Every clue was analysed in detail.
- This game adheres to the theme of the event - "Incredible India".

SWOT Analysis:

Strength	Weakness	Opportunity	Threats
Event was online, hence students from all colleges could easily participate. Participation from 8 out of 13 partner colleges was seen	Multiple rescheduled due to less number of registrations	With better promotion, more participation can be easily expected	Event was repeatedly postponed due to less participation by partner colleges
Increase in Cash Prize this time was a good incentive to increase participation	Events could not be conducted in offline mode.	Events can be conducted in offline mode in the future	Difficult to retain audience attention as there were simultaneous events being held.
Smooth conduct and evaluation in online mode without the havoc of offline co-ordination of participants in each round	Overwhelming to prospective leads	Networking advantages through diverse access	Escalated confusion among participants due to gap in communication in online mode
Strong support from internal faculty and being available for judging responsibility	Network or data connectivity issues on participants end leading to drop in participation	More B2B interaction	Less excitement or buzz created as compared to offline events.

Outcome:
